FROM—TU rner and YE llowstone Telephones:

Local calls

To call a TU rner or YE llowstone telephone dial ONLY the five digits of the telephone number.

To call Merrillville telephones dial the code "7" followed by the five digits of the Merrillville telephone number. (Merrillville alphabetical listings follow the Calumet District alphabetical listings in this directory).

Out-of-Town calls

When the Operator asks for the number of your telephone be sure to give the COMPLETE number, for example, TU rner or YE llowstone plus the five digits of your telephone number.

When calling TU rner or YE llowstone telephones from Out-of-Town use the entire number including prefix (i.e. Dial "TU" or "YE" plus the five digits of the telephone number or give the prefix "TU rner" or "YE llowstone" to the Operator).

A TIMESAVING TIP

You'll usually save time by looking in the directory where most numbers are listed before calling Information. Information operators must look up the number, just as you do. By doing it yourself, you save the time it takes to call Information. After obtaining a number not in the directory, we'd suggest you jot it down for future use. A personal telephone directory is available for this purpose without charge from the business office.

You May Telephone Telegrams

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

Charges for telegrams, cablegrams or radiograms placed by telephone will appear on your monthly telephone bill by arrangement with Western Union. Collect wires telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

About Your Telephone Number

Occasionally, in the past, it has been necessary to change the telephone numbers of some of our subscribers. It may, likewise, be necessary to change some numbers in the future.

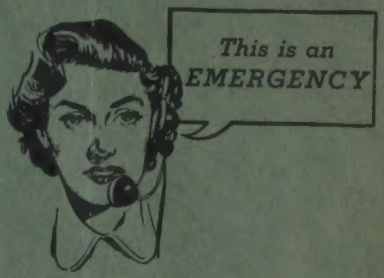
We're sorry we can't say to you, "We'll never have to change your telephone number." As a matter of fact, we don't like to change them and won't do it unless it is absolutely necessary.

Need an Extra Directory Listing?

Names of other members of your household also can be listed in the telephone directory at a nominal charge.

If you are a businessman, you will find it especially convenient to list not only the name of your firm but your own name as well. Alternate call numbers and after-office-hour listings help to assure receiving your customers' calls.

Call our Business Office about extra listings. They mean better service for you, your friends and your customers.



Illinois Bell operators get many urgent appeals for aid. People in distress throughout the company's territory call them for help hundreds of times a week.

When trouble strikes, many people turn automatically to the telephone operator—their only link with the outside. Through training and instinct, the operator acts fast in emergencies. Many times her speed and initiative have meant the difference between life and death.

It's comforting to know she's always within arm's reach when you need her—not only with operator service, but with dial service, too. Her reassuring voice will answer whenever you dial "operator."

CALLING AN OUT-OF-TOWN PHONE?

Here's How To Save Time and Money

You'll save time from the start if you give your out-of-town calls to the right operator. By checking the lists on the next two pages you can be sure of placing your call correctly. And you'll find some time and money-saving tips on placing long distance calls on this page.

3 Ways to Save Money on Long Distance Calls

1. CALL STATION-TO-STATION if you are willing to talk to anyone who answers. Charges begin when anyone answers at the called telephone or private switchboard. Station-to-station rates are lower than person-to-person rates. But . . .
2. CALL PERSON-TO-PERSON if you want to talk to a particular person. Just tell the operator you wish to talk to a particular person.
3. PLACE YOUR CALL AFTER 6:00 P.M. ON WEEK DAYS or *any time* Sundays; you'll make a substantial saving. Rates are also reduced on Thanksgiving, Christmas and New Year's.

   On calls within Indiana the reduced rates apply to "station" calls where the initial period rate is 40c or over and to "person" calls where the initial period rate is 60c or over. Reduced rates on calls to telephones outside of Indiana apply to "station" calls where the initial period rate is 45c or over and to "person" calls where the initial period rate is 65c or over.

Tips for Saving Time

You'll get faster service if you give the details of your call to the Long Distance operator like this:

FIRST Give her the name of the town and state you are calling. Then the telephone number, if you know it; EXAMPLE: "Detroit, Michigan—WOodward 5-3456". If it's a person-to-person call, also give the operator the name of the person you want.

SECOND If you don't know the telephone number, give the name and address and tell the operator whether it's a station-to-station or person-to-person call.

THEN Give your telephone number when the operator asks for it—and hold the line unless the operator says there will be a delay. Most long distance calls go through while you wait.

SPECIAL CALLS YOU CAN MAKE

OVERSEAS CALLS—You may talk by telephone to any one of more than 90 countries, territories and dominions throughout the world. Dial "110" and place your call in the usual way.

SHIP-TO-SHORE CALLS—Certain ships in harbor or inland waters and on the Great Lakes or high seas may be reached by telephone. Dial "110" and place your call in the usual way.

COLLECT CALLS—If you place a call "Collect", and it is accepted on a "Collect" basis by the person you are calling, it is paid for by him instead of you. To place a "Collect" call, dial "110."

The charges are the same as for other out-of-town calls except there is an additional charge on "station" calls when the regular rate is 25c or less, (not including federal tax).

CALLS TO VEHICLES—You can now telephone to or from properly equipped vehicles operating within mobile service areas.

Calls can be made to or from any telephone reached by the Bell System.

To call a vehicle, dial "110", and tell the operator you wish to place a mobile telephone call.

a neighborly party line

Just as much as the people next door or across the street, the folks on your party line telephone are neighbors. Maybe as the saying goes, you wouldn't know them if you fell over them, but chances are they are folks with a family to raise—a household to manage—calls to make—very much like you. As a matter of fact, you are some one's telephone neighbor.

Well, the best party-line service for *all* depends on courteous, cooperative use of the line by *all* the party-line neighbors. So—here's how you can do your part.

How to be a GOOD TELEPHONE NEIGHBOR in 6 Easy Lessons

Answer Promptly

This will insure receiving all calls intended for you and will prevent possible annoyance to another family on the line.

Take a Breather

A "breathing spell" between calls gives your neighbor a chance at the line. It also permits incoming calls to come through.

Listen Before Using

Make certain that the line is free before attempting to call a number. (In the case of dial service, listen for the Dial Tone. If you hear successive clicks, it means that someone else is dialing a number. Wait until they stop; then explain to the party that you have interfered with his dialing. And hang up.)

Replace Receiver Properly

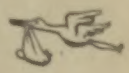
If you don't, the line is just as "busy" as if someone were talking on it. Incoming calls are blocked; and eventually no one can reach the operator. And when you find the line already in use, the neighborly way is to hang up gently.

Tell the Children How

Teach 'em young how to use the telephone—to be considerate of others on the party line. . . . not to talk unnecessarily long.

Give Way in Emergencies

If your neighbor says the line is needed for an emergency, cut the call short and give the right-of-way. You might otherwise always regret it.



To call ANOTHER PARTY on your line

If you want to know who else is on your line, dial 114 for "Repair Service".

On Two and Four-Party Lines

When calling another telephone on their line, two and four-party line customers dial a special code number to ring the desired telephone—*not* the number as listed in the directory for that party.

If you are a *two-party line subscriber*, use the code 1191 to call another party on your line. If your number begins with TUrner 4, or TUrner 7, however, the code is 1-1912.

If you are a *four-party line subscriber*, dial 114 ("Repair Service") and give your telephone number and the name of the party you wish to call. "Repair Service" will then tell you the proper code number to dial. Make a note of that code number for future use.

How to Place Your Call

1. Dial the code and hang up your receiver to allow the other party's bell to ring.

   Your bell will also ring at intervals indicating that the other telephone is ringing.

2. When the ringing stops, you will know the other party has answered.

3. Remove your receiver. Proceed with conversation.

If your party does not answer within a reasonable period, remove your receiver for a few seconds in order to clear the line. Then replace the receiver.

Telephone Films, Demonstrations and Talks

Interesting films, demonstrations and talks about telephone service are available to public groups without charge.

These portray the story of modern communications. They explain the scientific magic of a telephone call, whether it be across the street or around the world. They are entertaining as well as informative. Pamphlets listing current films are available at the Telephone Business Office.

For further information, call your Telephone Business Office.

Tips For the Best in Dial Telephone Service

For faster service—refer to your directory, using the number listed.

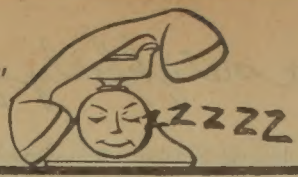
Do not turn the dial while talking. It may break the connection.

Always replace the receiver for a few seconds between calls.

If you encounter any difficulty, dial "Operator" and explain the difficulty to her . . . She will be glad to help you.

Gary, Ind.

"LAID OFF..."



A carelessly replaced telephone can't go to work for you! You've closed the door to your friends and relatives without knowing it, for no calls can come through while your telephone is off the hook.

It's a good idea to be sure your telephone is replaced properly after a call.

GIVE THE PERSON YOU CALL.....

time to answer

Time passes slowly when you are waiting at the telephone for some one to answer your call. A few seconds may seem like a couple of minutes.

When you make a telephone call, give the person you are calling plenty of time to answer. He may be far from the telephone or may not have heard it ring the first time. He may have been delayed in answering.

By waiting a short time you may save yourself the trouble of calling again.

ATTRACTIVE PERSONAL DIRECTORIES

A copy of a personal telephone directory is yours for the asking. The directory is handy for listing your frequently called numbers—your friends', business associates', numbers for places where you shop, and so on. For a copy of the directory, just call your Service Representative at the Business Office.

This small, personal directory will save you time in calling. Be sure, however, to keep your personal list of numbers up-to-date by checking it with each new directory issue.

HOW TO DISPLAY YOUR TELEPHONE NUMBER

If you use your telephone number on stationery, advertising material or display it in any way, please follow these suggestions. Doing so will help you to get your incoming calls promptly.

1. Spell out the exchange name in **full. Capitalize** the first two letters, and subordinate the remaining letters by printing them in lower case, or smaller size, regular face type.
   For example: **TUrner 6-**

2. Set all the figures in the same size bold face type as the first two letters. Use a hyphen between the first figure and the last four figures of the number.
   For example: **TUrner 6-8942**

3. When the telephone number is displayed on two lines, always include the figure of the exchange name on the same line with the exchange name. Use a hyphen after the figure.
   For example: **TUrner 6-**
   8942

4. When two telephone numbers are displayed, show the complete exchange name with its figure before each telephone number.
   For example: **TUrner 6-8942**
   TUrner 6-8943

To call Merrillville telephones dial the code "7" followed by the 5 digits of the Merrillville telephone number.

When calling TU rner or YE llowstone telephones from out-of-town use the entire number including prefix (i.e. Dial "TU" or "YE" plus the 5 digits of the telephone number or give the prefix "TU rner" or "YE llowstone" to the operator.)

FROM—UN ion Telephones:

To call a UN ion telephone dial only the 5 digits of the telephone number.

BLUE BOOK

The "Blue Book" is your personal telephone directory. You'll find it handy to list the local and long distance telephone numbers you call regularly. Just call your Service Representative at the telephone Business Office.

AND REMEMBER

When you call "long distance,"

CALL BY NUMBER . .

it's faster!

"Please call me when you have any question about telephone service"

"Miss Service Representative"
—your personal representative
at Illinois Bell

"ANY TIME you have a question about your telephone—whether it's about your bill, rates, ordering an extension, moving your telephone, getting an extra listing in the directory, or nearly anything—please call me.

"You see, I'm a 'Service Representative,' which means I'm your *personal representative* at Illinois Bell. You might describe my job as being the *link* between you and the thousands of men and women in our company who are working to give you good service.

"Of course, I may not be able to answer *every* question you ask immediately. But I'll *get* the answer for you as fast as I can. Remember, there's no charge for local calls to me. Call me at your telephone Business Office."

No price can measure its usefulness

YOU'RE THE BOSS!

It's true. *You* are the boss of the telephone company—the one we're really trying to please.

We telephone people try to give you the best service we can *all* the time.

That's why we welcome your criticisms and suggestions.

We get them daily in comments and letters. And every six months we interview 3,000 customers, asking questions like this:

What one thing about your service most needs improvement?

Can you recall any occasion when you were particularly annoyed by something the telephone company did, or failed to do?

Then we analyze the answers. They tell us where our service can be improved and where it is good.

Being human, we can't always please everyone. But we can try—and we *do*. We will keep on trying because, after all, *you* are the boss.

Anything on your mind now, boss?

APPLICATIONS

Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

ESTABLISHMENT OF CREDIT

In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in a manner prescribed by the tariff.

OWNERSHIP AND USE OF THE EQUIPMENT

Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, repairing the instruments and lines or for making collections from coin boxes and, upon discontinuance of service, for the purpose of removing its instruments and lines. Such equipment is not to be extended to joint users or to part of the work of transferring subscriber's residential premises telephone message without the right to refuse to install such service to remain or is to be paid any public character when the pony, without the writ public in general or patrons

TELEPHONE DIRECTORIES

Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.
